NOTICE OF STUDY COMMENCEMENT AND PUBLIC INFORMATION CENTER

MUNICIPAL CLASS ENVIRONMENTAL ASSESSMENT STUDY HIGHWAY 417 INDUSTRIAL PARK WATER AND SANITARY SERVICING

Project Background

The Township of Russell is undertaking a Schedule B Class Environmental Assessment (Class EA) study for a project to provide municipal water and sanitary servicing to the Township's Highway 417 Industrial Park. The study will be completed in accordance to the *Municipal Class Environmental Assessment* document (October 2000, as amended in 2007 and in 2011).

The Study Process

The purpose of this Class EA study is to determine the preferred solution to provide municipal servicing to the Highway 417 Industrial Park located near the intersection of Highway 417 and St. Guillaume Road. The study area for the project is shown in the following figure with the area where the proposed infrastructure extension is proposed is identified as the area of interest.

Consultation with, and input from the public and government review agencies will be a vital component of the Class EA study. Members of the public and review agencies are invited to provide comment for incorporation into the overall planning of the sanitary and water system extension. Additional notices will be advertised to inform, and to solicit further input from the public as the study progresses.

Public Information Centre (PIC)

As part of this study, a Public Information Centre (PIC) will be held to present the findings of the study to the public and other stakeholders, and to provide an opportunity for interested parties to provide comments and feedback to the project team.

The purpose of the PIC will be to present the objectives of the study, to present the alternative solutions, present the approach to the evaluation of alternatives, the preferred alternative, and to request public input. Information will be presented on display boards and staff from both the Township and WSP will be available to respond to questions from participants. A comment sheet/questionnaire will be available for attendees to provide written feedback.

Details on the PIC will be published on a separate notice.

Comments

We are interested in hearing any comments or concerns you may have with respect to this study. Comments received through the course of the study will be considered in selecting the preferred solution. Information will be collected in accordance with the *Freedom of the Information and Protection of Privacy Act*. With the exception of personal information, all comments will become part of the public record.

As part of the consultation process, a mailing list for notification purposes is now being compiled. If you wish to receive further information about this project, to submit a comment, or to be added to the mailing list, please contact:
